#### Requesting Targets of Opportunity (ToOs) with NICER

NICER is capable of following up on Targets of Opportunity (ToO) within 4 hours (depending on source visibility). TOO requests should be submitted via the [ARK/RPS NICER Target of Opportunity/Director's Discretionary Time Request](#) form.

The NICER team monitors the [Gamma-ray Coordination Network \(GCN\)/Transient Astronomy Network \(TAN\)](#).

Please review the [NICER ToO Policy](#). Any questions regarding how to make TOO requests should be sent to the NICER Helpdesk via the HEASARC's [Feedback Form](#).

#### NICER ToO Request Summary

Category - RP\_NS: Rotation-Powered Neutron Stars, MAG: Magnetars, WD\_CV: White Dwarfs and Cataclysmic Variables, STAR\_OGS: Stars/Cataclysmic Variables/Other Galactic Sources, BH: Black Holes, SN: Supernovae, EGAL\_XS: Extended Galactic X-ray Sources, N\_GAL: Normal Galaxies, AGN\_QSO: Active Galaxies and Quasars, GC\_EGEO: Galaxy Clusters and Extragalactic Extended Objects, XB: X-ray Binaries, OC: Other,
